

**On Thursday, the City Council is voting to extend and make permanent the ageist, racist, classist curfew law. We object to the curfew because it criminalizes the youth, particularly people of color, in our city. Specifically, this law:**

1) Makes it illegal for law-abiding adults to escort non-custodial minors and family members (i.e. nieces, nephews, sisters, brothers) in Philadelphia - this includes all “publicly accessible” areas like the movie theater, theater, stores, restaurants, etc.

2) Targets Black youth and aims to prohibit their movement within richer neighborhoods.

3) The curfew allocates money that could be better spent on education and recreational programming for Black youth than for their detention.
